

## CAPABILITY STATEMENT

## ACG

### Technology \* Community Programs \* Organizational Capacity

#### COMPANY OVERVIEW

Ameritech Consulting Group provides technology services, program implementation support, and strategic advisory services to government agencies, nonprofits, and mission-driven organizations.

Our team supports organizations in modernizing operations, expanding digital access, and implementing community-focused programs that improve service delivery and strengthen organizational performance.

#### CONSULTING SOLUTIONS

##### Technology & Digital Solutions

- Modernize IT and digital infrastructure
- Implement AI-driven workflows and automation
- Align technology investments with long-term strategic goals

##### Urban Strategy & Smart City Solutions

- Plan sustainable, resilient urban growth using data-driven insights
- Integrate smart infrastructure and IoT for efficient city operations
- Navigate complex zoning and regulatory environments

##### Program Execution & Community Impact

- Lead end-to-end project management from concept to delivery
- Engage stakeholders inclusively to ensure equitable participation
- Maximize project impact through proactive risk and resource management

##### Data Analytics & Insights

- Translate raw data into actionable performance metrics and dashboards
- Forecast trends and anticipate urban challenges
- Deliver evidence-driven governance and executive reporting
